

# ITERATION PLAN FOR 3<sup>RD</sup>

*Ricochet Robots Project*

---

Group #6:

McDonald, Brianna  
Younis, Faisal  
Chikwati, Ngoni Nigel  
Juwaheer, Yudish

### **Group 6 Iteration Plan for Iteration 3:**

- Group members agree to respond to Facebook Messenger messages within 24 hours. Members agree that responses must be meaningful and relevant to any question asked. Group members agree to meet in-person at least once a week based on everyone's availability.
- Progress Log, Communications Log, and Individual Participation Logs are submitted as separate documents.
- For iteration 3, we plan on doing the Fully Dressed Use Cases for "Human move demonstration" and "Score Validation". Therefore, in our next release, we expect to have a fully playable game (main focus: Human Players) and to output the winner with proper score.

#	Activity	Member(s) Responsible	Review by	Complete by	Depends on task
1	Revise the two previously submitted Full Use Case Descriptions	Faisal Younis	20/03/2020	18/03/2020	Await Feedback
2	Revise the two previously submitted Sequence Diagrams	Faisal Younis	20/03/2020	18/03/2020	Await Feedback
3	New Fully Dressed Use Case Description 1 (Human move demonstration)	Ngoni Nigel Chikwati	13/02/2020	12/03/2020	N/A
4	New Fully Dressed Use Case Description 2 (Score Validation)	Yudish Juwaheer	13/03/2020	12/03/2020	N/A

5	Sequence Diagram 1 (based on New Use Case Description 1)	Brianna McDonald	13/03/2020	14/03/2020	3
6	Sequence Diagram 2 (based on New Use Case Description 2)	Yudish Juwaheer	13/03/2020	14/03/2020	4
7	Logical Architecture diagram	Brianna McDonald	16/03/2020	14/03/2020	3, 4
8	Minor Release of Application (including functionality from the 2 New Use Case Descriptions)	ALL	19/03/2020	19/03/2020	3, 4, 5, 6, 7
9	Week 1 Review	ALL	14/03/2020	13/03/2020	N/A
10	Week 2 Review	ALL	19/03/2020	18/03/2020	N/A
11	Plan for Next Iteration	Ngoni Nigel Chikwati	20/03/2020	19/03/2020	Release of Iteration 4 Requirements
